

OPINIONS

"I think that aliens really exist, they are friendly and very sweet. They would like to know us better, but some people aren't prepared to meet them. They think the aliens are bad creatures. Maybe they are bad, like some people, but if we let them live in peace, they wouldn't hurt anyone."

Carmen's opinion

"My opinion about aliens is negative: I DON'T BELIEVE IN ALIENS !!! Because all the stories about them are inventions. The aliens don't exist. I don't know anybody who has seen aliens. That's my opinion about aliens."

Florina's opinion

"I think aliens exist, but they are scared of the people on this world and they are sensitive creatures. I hope that one day, they will come on Earth."

Iulia's opinion

"I think that aliens really exist, but they aren't coming to Earth because they are afraid that we will attack them with our weapons or because they don't want to show us their identity - so far. Maybe in the near future, they will land on Earth and show their faces to mankind."

Roxi's opinion

ABOUT ALIENS

Where are these UFOs coming from? Maybe they are spaceships or simple landing modules. Their pilots are, as facts demonstrate, members from other civilisations, more advanced than we are at this moment. UFOs were met not only on Terra, some spectacular meetings occurred in outer space. American cosmonauts Charles Conrad and Richard Gordon, members of "Gemini XI" cosmic capsule team, have filmed near their cabin an object which they couldn't identify.

If these UFOs came to this corner of the Universe, why didn't they contact terrestrial population? Undoubtedly, some people expect the aliens arrived with UFOs, even if they are little green creatures, to come to a hotel and ask for a room and the next day will make a press conference, where they will tell people their peaceful intentions.

Unfortunately, the mysteriously UFOs continue to fly on the sky and they aren't very much to land. And for which reason they would land, when at Mendoza (Argentina) and Cieux (France) they are welcomed with firearms and at Milano (Italy), with a rain of rotten oranges? So not to ask this interstellar travellers to come and drink coffee with us. They are maybe representatives for other civilisations.

Another assumption, upheld by Einstein too, says that UFOs are ships of some people who left Terra 10.000 years ago and now they came back to their origins, without revealing their identity - so far. The most spectacular assumption says that UFOs are ships of some creatures from the future, of some time travellers. This future is the future of our planet, UFOs being ships of our far descendants. Their presence could be studying trips, watching missions or simple pleasure trips.

There is no doubt that our imagination could invent other assumption and find arguments in UFO phenomenon favour. First, we could talk about UFO's instantly disappear from witness visual field, disappear which suggest crossing in another dimension. Then it could be the humanoid aspect of the intelligent beings, which pilot the UFOs.

People who saw UFOs

This event happened when Jansen with a neighbour were coming from Oslo to Skien by car. Suddenly, an object appeared behind a hill with a very high speed. The object flew around the hill and stopped in front of the car. At the beginning, Jansen didn't accorded attention to the object, thinking that it is a bird flying near the ground. After that, he saw a light, which seems to follow the car. Some seconds after, the UFO stopped in front of the car, making Jansen to push the brakes. The objects approached slowly to the car and then suddenly flew vertically with a remarkable speed.

Farmer Maurice Masse had a similar experience, in Valensole village. He was on the field at 6:30, preparing to start his tractor, when he heard a strange noise. Going in the noise direction, he saw a strange object floating in the air. Maurice approached near the object, but at 20 feet, he realised that the object is looking like an egg. Near the object were two green beings, with big heads, small mouth and very short. When the beings realised that Maurice saw them, one of them took his gun and paralysed him. After they looked at him for a minute, they entered in their ship and flew away.
